### Utilizing Shared Spaces in School Age Programs

Are you 'living out of a cart' and trying to provide sufficient, appropriate materials to enhance the play experiences that you offer to the young people in your school age program? Is storage and having to rotate spaces an issue that you are regularly faced with? Is it difficult to highlight the work of the young people in order to make their learning visible in the spaces that you work within? If you have answered yes to any of these questions and would like inspiration in moving forward, this workshop is for you. Join Ginette Wilson and fellow Educators of school age children to engage in reflective conversations, share ideas and gain practical strategies to use in your school age program.
